#### Your Rule of 100 & Risk Score

IF YOU HAVE YET TO COMPLETE OUR COLOR OF MONEY RISK ANALYSIS, PLEASE VISIT RETIREWITHBUSKA.COM AND CLICK "GET YOUR RISK SCORE" TO EASILY DETERMINE YOUR SCORE.

100 Your Age % Recommended Risk The Rule of 100 is a starting point, not an absolute rule. **COMRA Score** We use our Color of Money Risk Analysis (COMRA) to help our clients understand their Risk Score. When it comes to your Risk Score, what percentage of your assets do you think should be exposed to red money at this point in your life? **Green Money** "Know So" money represents those assets which have guaranteed\* values and/or guaranteed\* growth. Desired Risk **Red Money** "Hope So" money are assets that are more unknown. They may be invested directly in stocks, bonds, mutual funds or other instruments that do not provide guarantees. The rule of thumb known as the "Rule of 100" provides the required tools to investigate what blend of Red and Green assets are right for you.

How would you describe your risk tolerance?

O Conservative O Moderate O Aggressive

<sup>\*</sup>Guarantees based on claims paying ability of the insurance carrier or financial institution.

## Legacy Planning
